THE NEWSLETTER OF THE NASHVILLE PHOTOGRAPHY CLUB

# MODEL PHOTOGRAPHY

NOVEMBER SPEAKER **David Morel**

**D**avid Morel is a fine art and portrait photographer based in Nashville, Tennessee. He has been taking pictures since he was five years old when his father introduced him to photography.

With no formal training, he has grown his art through part-time employment as a photographer in college, participating in camera clubs, and attending photo workshops with nationally recognized photographers.

His work has been published in international publications and featured by companies such as Lensbaby and Kettel One Vodka.

Dave will discuss the ins-and-outs of photographing models—how to find them and best work with them. He'll talk about equipment, techniques, and post-processing. Behind-the-scene images will showcase lighting setups and compare images straight out of the camera with the finished product.

014278 FLAT IRON BUILDING, NEW YORK, N. Y.

DETROIT PUBLISHING CO.

*FLATIRON BUILDING,  
NEW YORK, N. Y.*

1902

8x10" GLASS NEGATIVE

The Flatiron Building, originally the Fuller Building, is a triangular 22-story, 285' tall steel-framed building located on a block formed by Fifth Avenue, Broadway, and East 22nd Street in New York City. The building has been called a quintessential symbol of New York and one of the world's most iconic skyscrapers. It's a popular spot for tourist photographs and is among the most photographed buildings in the world.

It still serves as a functioning office building, known for having strangely-shaped offices with walls that cut through at an angle on their way to the skyscraper's famous point. These "point" offices look directly upon the Empire State Building—built almost 30 years after the Flatiron Building was finished.
