*It's weird that photographers spend years or even a whole lifetime, trying to capture moments that added together, don't even amount to a couple of hours.*

(Request for help) After several years of doing the club newsletter it is time for someone else to take over. There are several good reasons as to why you should consider this as an opportunity and not as a choir. You will be doing re-search on the different aspects of photography such as photography skills, camera equipment, camera accessories, photo related articles and videos. It will take a few hours each month which is generally enjoyable. I will be happy to assist you in preparing your first edition.
